Spécificités produits / Product specifics : From the cultivation of the durum wheat to the manufacturing process, this dough is made with French know-how! Durum wheat is produced in the Camargue and in the south-west by a group of farmers and cooperatives motivated by the perpetuation of this crop adapted to the Mediterranean climate. France's oldest semolina manufacturer transforms this grain into semi-complete semolina, which we then process in our workshop in Ardèche. PRIMEAL IS COMMITTED TO FRENCH ORGANIC FARMING AND TO THE DEVELOPMENT OF LOCAL PARTNERSHIP SOURCING.

Conseil d'utilisation / Using advice : Throw the pasta into a large volume of boiling salted water and cook for 9 minutes for "al dente" cooking and 11 minutes for "melting" cooking. Drain and eat the pasta hot simply with a drizzle of olive oil or with a sauce of your choice.
